COMMUNITY CHOIR

## Download Now Step 1

Go to [www.takenotecommunitychoir.co.uk](http://www.takenotecommunitychoir.co.uk) and download the materials for 'One Voice'.

## Step 2

Play the track and practise singing along until you are confident. Be sure to sing at your pitch

## Step 3

Next, play the track from your computer or tablet in your ears only, through some headphones. Do this a few times until you are used to it.

## Step 4

When you're ready, keeping your headphones on, ask a friend or family member to video you singing the whole song on a separate phone or tablet. Ideally, just your head and shoulders should be in the shot. The recording should just be you singing. The backing track will only be heard by you, in your ears.

## Step 5

When you are happy with your recording and it's all in time with the track, submit your video via [www.wetransfer.com](http://www.wetransfer.com) as the file will be too large to email directly.

## Step 6

When prompted by 'WeTransfer', send to [takenotecommunitychoir@hotmail.com](mailto:takenotecommunitychoir@hotmail.com)
